about the state it would be well if it friendliness, would consider the menace at this and . There was none too much assurance would consider the menace at this and mere and that the conference here between Chill in a distance of a half mile. The cross- ling tender appears to be efficient while on duty, but there is need of a signal at that point to indicate the approach of a litrain when the tender happem to be off duty. Such a warning would have done much to prevent averal deaths by much to prevent several deaths by trains at crossings in the Greensville section of the city.

### RETURN THEM TO CONGRESS.

In the coming election there will be elected all the members of the lower house of congress and one-third of the members of the senate. It is therefore, should consideration be given only to the national phase of the contest, an mportant election.

It is known what it means to have he south in the suddle and it cannot fail to be the desire of every voter to present a return of such a condition. It is only through the election of a republican congress can this be assured. The election of democrats to either the house or the senate means that because of reniority the south will be in control and the north will be again at the back and call of the south.

It cannot be forgotten what this mount even during war days. When congress was under democratic control is grent for cantonment werk and other activities in ten wouthern states over \$268,000,000 as initial expenditures its expenditures in ten northern states amounted to less than \$183,000, 000 for similar purposes. And yet durstates paid in taxes to the government only \$132,700,000, while the ten porthern states turned in to the government more than \$2,141,000,000 in taxes.

Not only did the democratic congress iax the northern states for money to be spent in the southern states during the ways welcomed but its stay is an short in the man power. In the readjustment of population on which the draft was made to be made the northern and western states were given an increase in population of more than \$,000,000 while its southern states were given a decreased population of more than \$,000,000 while its southern states were given a decreased population of more than \$,000,000 while its southern states were given a decreased population of more than \$,000,000 while its southern states were given a decreased population of more than \$,000,000 while its southern states were given a decreased population of more than \$,000,000 while its southern states were given a decreased population of more than \$,000,000 while its southern states where given a decreased population of more than \$,000,000 while its southern states where given a decreased population of more than \$,000,000 while its southern population of more than \$,000,000 while its southern states where given a decreased population of more than \$,000,000 while its southern states where given a decreased population of more than \$,000,000 while its southern states where given a decreased population of more than \$,000,000 while its southern states were given a decreased population of more than \$,000,000 while its southern states were given a decreased population of more than \$,000,000 while its southern states were given a decreased population of more than \$,000,000 while its southern states were given and the coal probability may win recognition as another, ways a bulletin from the National George state of the lack of the to wash ington, D. "For a tiny Baltic state, only a little thanks when the coanserved feel is needed in January and February.

Hallowe'en, the night to waith out of its borders, then to disarm the Germans in its midst by constitutional means is an achievement. Even allowing for a strategic location and for breaks of political lock, Latvia's permitted to the bolitical lock actions and the leader of political lock latvia's permitted the b

tor Mulean and Congressman Freeman, whose services in Washington are long faithful and efficient and for the welfars of the district, state and nation Their record calls for their recipition.

A RAD PERFORMANCE. dreat progress has been made in a visition and both aviators and machines are better because of the development and experience, but the time ham't as yet arrived when absolute safety exists or when it is proper to take chances with the lives of others in

doing stunts.

Proverse have been made because of the action of the aviator who drove his machine over the Tale bowl at the Yale-West Peint game on afturday. It was a case where ability in the handling of the airplane was displayed whether it was a case of straight saling or the doing of stunts, but it was also a case where more than one was thinking of what might happen to some of the caged 75,000 should something happen while the machine was ever the bowl and the flying machine plungs in to that mans of humanity.

Plainty it was a case of taking chances that was unfailed for. There was risk in such a demonstration quite as much as there was a few days ago

as much as there was a few days agwhen a mayor of a larger city protest-ed because aviators had falled to abide hy the regulations requiring them to fly not lower than a certain height

my not lower than a certain height when passing over the city.

Aviation accidents are of frequent occurrence. One of the machines which had accompanied the one at New Haven from Mineola had been wresked but a few hours previous. To have had an airplane drop when over the bowl would have meant serious consequences. It ner that cannot be approved if prope thought is to be given to safety.

THE INEFPTOIENT TAIL LIGHTS.

the ineffroient tail lights that connection with the protection of the highways, attention is called in a neighboring state to the fact that there is a large percentage of tail lights that that fall to come up to the requirements, and this in spite of the fact that most auto convers seem to labor under he improssion that they are fully complying with the law.

Perhaps the situation in that state is not much different from what it is in other states. Tail lights are not as important as the headlights and yet they are there for a purpose. They afford protection to the fellow behind and to those in the car carrying them, and in these days when there are so many violations of the auto laws, so many acident use of the auto is in a quite important that the rear light on a machine should render the service that is expected of it. The tail light is expected to be of sufficient brightness that it will show to the car's registration number at the rear. Where headlights are inclined to be to to be took or the tail is the car's registration number at the rear. Where headlights are inclined to be to to be took or the tail light is a replicable to read light that will make to strong, the most of the car's registration number at the rear. Where headlights are inclined to be to to be took or the car's registration number at the rear. Where headlights are inclined to be to to be took or the car's registration number at the rear. Where headlights are inclined to be too be right and too strong, it is just to be took or the car's registration number at the rear. Where headlights are inclined to be to be took or the car's registration number at the rear. Where headlights are inclined to be to be right and too strong, it is just to be compared to the car's registration number at the rear. Where headlights are inclined to the car's registration number at the rear. Where headlights are inclined to the car's registration number at the rear. Where headlights are inclined to the car's registration number at the rear. Where headlights are

will prove a success.

#### What New Jersey Thinks of George P. McLeth

"I consider Senator McLean one of the most valuable members of the United States Senate, He is unquestionably the best informed member of the Senate on banking and financial legislation. Likewise his services as a member of the Finance Committee have been of the highest order, I cannot conceive that an industrial constituency such as exists in Connecticut could fail to re-cleet him."

### CROWDED EVENINGS

"I forgot to say," remarked the ex-comely marsalled daughter as she rush-d in to the preakfast table, "that Mr. comely is coming to call this evening— arismoly is coming to call this evening tremely marchied daughter as she runhed in to the preakfast table, "that Mr. ed in to the breakfast table, "that Mr. Shrimply is coming to call this evening—you know, the gentleman at the office whose people have a place on Long Island and everything."

"Oh, yes; we know," said her brother with emphasis. "I bet he said he'd come in gelf-defanae."

"Heck!" said the head of the house pervishly. "Don't you know this is the night I have my poker club here? You'll have to take him out in the dining room, I guess!"

"How nice of you to be se glad to see him!" the extremely margined daughter

"How nice of you to be so glad to see him!" the extremely marcalled daughter said cuttingly. "Why, I could no more receive Mr. Shrimply in the dining room than I could in the kitchen! I never heard such—"
"You took Artie Pettington out in the kitchen and made fudge last time my olub met here!" pointed out her father distinctly, reaching for a doughnut.

WALTER E. EDGE. United States Senator

on, we mustn't crab sister's little game...

"I think you are just beneath notice," the extremely marcelled daughter told him flercely. "Just because a gentleman is coming to see me is no sign he is anything to see! I have just the most casual interest in Mr. Shrimply and when this is the very first time he has been inside this beause I should think you would like to have him get a good impression of us?"

"If his soul shrinks at the movies," said her father adding sugar hastily to his second cup of coffee, "he can't be right. He is too tender and dollcate for a great rough man like me to play around with. I'll bet he never tasted sauerkraut in his life, did he?"

"But what am I going to do with him?" walled his daughter. "It is the only evening he has free for ages and I don't dare tell him he can't come—Bermuda Popps would saisp him up, as quick as a flash if I did—I mean Ud hate to hurt his feelings and make him think he wasn't welcome, and, anyhow, it is perfectly disgraceful to live in a place which has only one living room? Why, at their Long Island place Mr. Shrimply says they have twenty-one rooms."

"I could move the floor lamp and

"A consideration of Latvia brings two
new words into playwords which, like
intelligensia," may be missing from
many dictionaries, but which go a long
way toward explaining important facts
about the new republic.

"One of these words is Bait." The word does not refor, as might be sus-pected, to any indigenous resident of the fermer Baltic provinces of Russia.

Thomas Lee Woolwine, democratic nomines for governor of California, born at Nashville, Tenn., 48 years ago

william G. McAdoo, former secretary of the U. S. i-easury, born near Marietta, Ga., 59 years ago today.

Josiah O. Wolcott. former United States senator from Delaware, born at Dover, Del., 45 years ago today.

### IN THE PUBLIC EYE

Dr. Charles L. Slattery, who is to be consecrated today as hishop coadjutor of the Massachusetts Episcopal diocese, was born in Pittsburgh in 1867. He is a graduate of Harvard in the chase of '91, and of the Episcopal Theological School, Cambridge, Mass. After two years as a master in the Groton school, Groton, Mass., he became dean of the Cathedral of Our Most Merciful Savior at Faribault, Minn. From that position he was called in 1907 to the rectorate of Christ church, Springfield, Mass, where he remained till 1910, when he was installed rector of Grace church.

It may be, as claimed, that the Turkish ianguage is "capable of all shades
of meaning," but everyone knows rad
predominates,

# Beauties of All Races

Women of some 50 nations now whiten teeth in this way

If you don't know that method, we urge you to

#### Why teeth discolor

Teeth are coated with a viscous film. You can feel it now. It clings to teeth, gets between the teeth and stays. Food stains, etc., discolor it, then it forms dingy coats. Tartar is based on film.

Film also holds food substance which ferments and forms acids. It holds the acids in contact with the teeth to cause decay. Germs breed by millions in it. They, with tartar, are the chief cause of myorrhes.

Thus most tooth troubles are now traced to him, which no ordinary tooth paste can effectively combat. So, under old methods, tooth troubles constantly increased, and beautiful teeth were less often seen than today.

#### Two combatants new

Dental science, after long research, found two ways to fight film. One acts to curdle film, one to remove it, and without any harmful scouring.

Able authorities proved these methods effective. Then a new-type tooth paste was created, based

on modern research. The name is Pepe Thise two great film combatants were are in it. Now this Pepeodent has come into wide use, largely by dental advice.

### Other new effects

Other results were found to be essential, and Pepsodent brings them. It multiplies we alkalinity of the saliva. That is there to neutralise mouth acids, the cause of tooth decay.

It multiplies the starch digestant in the saliva. That is there to digest starch deposits, for they may ferment and form acids.

Thus every use gives manifold power to these great natural tooth-protecting agents. And these combined effects are fast creating a new dental era-

### You'll quickly see

These benefits are quickly seen and felt. One week will convince you that Pepsodent does what nothing else has done. The results will amaze and delight you.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

You will soon realize that this method is impor-tant, both to you and yours. And, when you know that, you will not return to ineffective ways. Cut out the coupon now.

The New-Day Dentifrice

Now advised by dentists the world over. Ali druggists supply the large tubes.

# 10-Day Tube Free

By Edith Lochridge Reid.

A business man not long ago was complaining serioually of his inefficient office help and he remarked. "The trouble is, these folks never learned to use their heads when they were small." Now this man was very close to one-hundred per cent correct in his statement. Too many children are not trained at home to make decisions, take responsibility according to their age and strength, or meet emergencies without shrinking. Let us say that Bobbie's duty is to pick up his playthings. But he picks up two or three and leaves the rest scattered about. Right there he should be taught a lesson in thoroughness. Very young children can be taught to hang up their coats and hats if the hooks are placed within the'reach, and thus they first learn the lesson of order and of care of their clothes.

Let us suppose that Dorothy is asked

pected, to any indigenous resident of the fermer Baltic provinces of Russia, pected, to appear the provinces of Russia, Just the opposite. A Balt is a non-Lett, descendant of the Brethren of the Sword, an aptly named band of German merchants who settled along the Gulf of Riga, near the present Latvia capital, Riga, and started in to convert or kill the Letts. Then and there the Letts gave an inking of their independent temper. They drove out the medieval missionaries, immersed themselves again in the waters of the Dvina where they had been baptized at the point of German swords, and sent the waters back to Germany as evidence that they renounced the new religion.

"Then and later Latvia shook of German political control but welcomes economic cooperation of Germans. Riga became a prominent member of the Hanseatic Lengue in the thirteenth century and kept a prominent place in world trade until 1914 when it stood second only to St. Peteraburg among Baltic cities in its shipping.

"Through the conturies of political seesaw the German merchants in Latvia ascomplished what invaders could not achieve. They gained control of the land and thus of the local governments and held a position which has been compared to that of the landed gentry in England of a century ago. This squirearchy of the Baltic comprises the Baltic, tires in the successify the Baltic provinces the Letts and their neighbors resisted. They result the first the hasket?" Where's my pocket book?" "I can't find my roller and their neighbors resisted. They result the hasket?" Where's my pocket book?" "I can't find my roller and their neighbors resisted. They result the hasket?" Where's my pocket book?" "I can't find my roller and their neighbors resisted. They result the hand in the message of the land and thus of the landed gentry in England of a century ago. This squirearchy of the Baltic comprises the Baltic, and so enlightened was their tyranny that when, about the time of our Civil war, the Tag began to the landed to the landed to the landed to the la
